Excipients – Personal Care – Food Additives – Fine Chemicals

Milling and solids processing require experience and specific process know-how. At our site in Wiesbaden we are providing both. With our long standing history in granulation and milling we offer audited and GMP compliant solid processing services for the excipients and APIs, personal care, food additives and fine chemicals industry. In our well-equipped laboratory and pilot plant we will find a solution to your problem and implement an efficient process in our commercial plant.
